AREA OVERVIEW

GOLETA

Conveniently located just 8 miles from Santa Barbara, the city of Goleta is nestled between a backdrop of majestic mountains and sprawling coastal bluffs. Home to beautifully-designed business parks, safe and family-oriented neighborhoods, and a world-class university (UCSB), Goleta is one of California's premier locations for businesses.

Hollister Avenue serves as a central corridor for Goleta, hosting a variety of blooming businesses in research, engineering, medical, and tech such as Google, Microsoft, Raytheon, Yardi Systems, Northrop Grumman, Inogen, and AppFolio. The Santa Barbara Airport, convenient for use by the surrounding companies, runs adjacent to Hollister Avenue.

SANTA BARBARA

Santa Barbara combines the art and culture of a big city with the heart and hospitality of a small coastal town. The city is 90 miles north-west of Los Angeles and 330 miles south of San Francisco and is served by the Santa Barbara Airport and Amtrak. Tucked between the Santa Ynez Mountains and the Pacific Ocean, Santa Barbara enjoys a mild, Mediterranean climate averaging 300 sunny days a year. Santa Barbara's beaches, parks and mountains provide a playground for a wide array of activities enjoyed by residents and visitors alike.

Renowned internationally for its fine restaurants, shopping, hotels and architecture, the tourism industry is the region's main economic driver. In addition, the city economy includes a large service sector, education, technology, health care, finance, agriculture, manufacturing and local government. Education in particular is well-represented with several world-class higher learning institutions including the University of California, Santa Barbara (23,350 students), Santa Barbara City College (12,000 students), Westmont College (1,200 students), and Antioch University.

A SOLID FOUNDATION

Goleta is well established as a fabulous, amenity-rich place to live, with countless beaches, parks, restaurants, community events, and more. But perhaps the best indication of Goleta's appeal as a place to do business is the array of companies that are investing in the community – literally – by buying property for their own local operations. Deckers Outdoor Corporation built its international headquarters at Cabrillo Business Park. Raytheon, FLIR, Yardi Systems and Karl Storz Imaging are other successful companies that own facilities in Goleta.

Boasting six nobel laureates on faculty and ranked eighth in the world for its impact on the sciences, UCSB is integral to the Goleta community and its largest employer. Students graduating with degrees in engineering and computer science frequently stay in the area to work for local businesses or start their own.
